

## Westbin E360 Negotiation Update October 19, 2023

Your bargaining committee members Rob and Don along with the Local Union in Prince George met again with the company on October 17, 18 and 19 to negotiate your first collective agreement.

We have provided dates for our next session with the company and are waiting to hear back from them.

We are still trying to show the employer the benefits of a clear and concise collective agreement. Hours of work, Benefits and wages were points of discussion that both parties have been unable to find common ground to this point.

We urge all of you to monitor your hours worked and overtime are accurate on each paycheque.

We want to meet with you again at the Union office so we can review how negotiations have been going.

We will share a meeting date and time as soon as we have confirmed.

For contact info or to ask questions,
